

Alex Robinson Personal Trainer

Alex Robinson (pictured) is fast becoming well-known in the local area for her skills as a personal trainer ... here's what one of her clients has to say:

I have been training with Alex for a year now and, despite constant cheating (chocolate, cakes, pies, chips) I average a 3lb weight loss each month and, more importantly, lose inches. Even more importantly I enjoy my time with Alex. I needed to be healthier after being diagnosed with diabetes. Alex took this into consideration and also a physical disability I have. I feel safe training with Alex. Although she expects to get positive results Alex ensures I am comfortable with the training. I have also benefitted from a personal diet plan which helps me lose weight (when I stick to it).

I have joined gyms, slimming clubs and bought exercise DVD's in the past but have never been committed for more than a few weeks. Alex's

commitment to me has been a positive influence and has given me a motivation I did not have before. Before I began training I was lethargic and had no energy. Now I feel different because I have more energy generally and an improved stamina for training and in my day to day life. Sometimes I arrive for training feeling wound up about something that has happened during the day. When I leave I feel mellow. For me the training is very valuable in many ways not just to be healthier (which I am) but I have gained in confidence and have a laugh. Also it has been a confidence boost when colleagues and friends have commented on my weight loss.

Thank you Alex
