THANK YOU TO **JACK WESTON OF JOHN FLAMSTEED SCHOOL**
FOR WRITING THE FOLLOWING REVIEW OF THE BULLS HEAD!

'From previous times I'd been, I always remembered how there were many options on the menu, pages and pages! I went for a meal again and found that there are 17 starter options, a whole page for 16 steak options, 12 chicken dishes, 13 'other' options for example pies and pasties. 9 fish dishes and I was particularly impressed to find that there were 11 vegetarian options because when compared to other pubs I've been to, there were either very few vegetarian dishes or none at all. And finally a wide range of side orders, but then there is the option to have combinations such as prawns and sausage or steak and scampi.'

'I had two lean pork steaks topped with bacon and smothered in a rich sauce of cheddar cheese, cider and wholegrain mustard, which is similar to another choice on the menu called the Marilyn Monroe, but the sauce isn't as strong. I thought it was so tasty; the sauce was delicious and had a unique taste. The meat was nice and tender too. For dessert I had a chocolate explosion and that was basically chocolate upon chocolate, upon cream upon cream! So if you're a chocoholic that choice I would definitely recommend.'

'The Bull's Head is a very popular pub but there is a down side to that, it's very unlikely that you will be able to get a table without reserving one on Fridays, Saturdays or Sundays because they are so busy. On Monday nights they have live jazz bands which I think is a good idea. Overall it is an excellent pub and I would recommend it to anyone.'
