What am I?:

Find one letter from each line of our poem and discover the answer to the clue in the last line

My first is in fish and also in chips
 My second is in mouth but not in lips
 My third is in ache but not in pain
 My fourth is my third all over again
 My fifth is in pupil, but not in class
 My whole is a beast that feeds on grass
 What Am I?

Did you know?

Identical twins **DON'T** have identical fingerprints. This is because fingerprints are partly determined by your position in the womb before you are born.

The names of these pets will only fit into the grid one way - can you find what it is?

Sarah wanted a modern picture for her house so went to an art gallery. After handling and examining each of the different pictures in turn she randomly replaced them after she had made her choice. Here is the display before and after Sarah's visit.

Which picture did she buy?
