

The Flower Shop Grave Tending Service

Always remembering ...

Nick Hopkins (pictured) is working with wife Sue to offer a valuable new service in the area. Following comments from customers, The Flower Shop in Horsley Woodhouse has introduced a new service to help ensure a loved-one's resting place continues to be cared for as a lasting memorial. Many graves are now sadly neglected due to a variety of reasons. People lead busy lives - many are elderly, infirm or lack the means of transport to visit the cemetery or churchyard. They may live away from the area, even overseas. This is now no longer an obstacle. Nick is able to tend the grave on the customer's behalf to ensure it is maintained in their absence. The service will include cleaning of the headstone and surround; cutting grass and overgrown areas; removing litter, leaves and decayed flowers. Nick's wife Sue can provide new flowers, plants and vases to order, and replace these at agreed intervals. Visits can be single, monthly, bi-monthly, quarterly, 6-monthly

or annually and prices for a standard visit start from just £12. Where required, visits can be timed to mark a significant date, ie birthday, anniversary, Mothering Sunday etc. Following each visit Nick will provide a report of the work carried out, together with a photograph of the grave.

These can be posted or emailed, as required. For more information and full price details give Nick or Sue a call on 01332 883228.

Christmas Wreaths – Orders must be placed by 30 November

Nick will place a Holly wreath at a grave, memorial or crematorium for just £12 including delivery. If it is placed during a standard maintenance visit the wreath will cost just £10.
